Be part of a special Here for the Girls program that is our cornerstone, the award-winning, annual A Calendar to Live By! We began our not-for-profit with the 2008 calendar. It is a physical representation of what we stand for as an organization, helping young women with breast cancer live their best lives. The calendar contains a breast health guide to help women take charge of their bodies, because part of living your best life depends on taking charge of your health, whether you've been diagnosed or not.
